## SUMMARY

Results-driven Junior Web Developer with a solid foundation in web development and a passion for creating functional and visually appealing websites. Equipped with experience in the basics: HTML, CSS, JavaScript, and frameworks of a higher complexity: React-Redux, MongoDB and more. Able to collaborate effectively with cross-functional teams to deliver high-quality projects on time. Seeking opportunities to further enhance skills and contribute to the success of a dynamic organization as a Junior Web Developer.

## PROJECTS

### FortuneHealth

Independent • <https://fortunehealth.vercel.app/> • May 2023 - January 2024

- Created the user interface using React to deliver an intuitive and responsive experience.
- Implemented the backend logic and functionality to support the frontend using technologies such as Node.js, MongoDB, and Express.
- Designed and implemented the database structure for storing patient information efficiently.
- Implemented the creation, saving, and utilization of test report templates, streamlining the documentation of patient tests and results. This resulted in a 20% time-saving in generating test reports when compared to the average clinic.
- Contributed to the entire stack, ensuring seamless integration between the frontend and backend.
- Integrated an audit trail mechanism to track changes and access to patient information, leading to a 30% improvement in accountability and compliance.

### EdTechX

Independent • <https://edtechx.vercel.app/> • August 2022 - February 2023

- Designed and developed a responsive landing page for EdTechX, showcasing specific features, technologies, or key information highlighted on the landing page.
- Utilized React, HTML, CSS, and JavaScript to create a visually appealing and functional landing page.
- Achieved specific metrics with regards to improved page loading speed.

## EDUCATION

### Bachelor of Medical Laboratory Science (In View)

Imo State University • Lagos, Nigeria. • 2024

## CERTIFICATIONS

### The Complete Web Development Bootcamp

Udemy The Complete 2024 Web Development Bootcamp by Dr. Angela Yu • 2021

- The certificate validates a comprehensive understanding of web development, covering both frontend and backend technologies. This includes React, HTML, CSS, JavaScript, server-side, APIs and Database technologies.
- Discussions on web security, ensuring awareness of best practices to protect against common vulnerabilities.
- Familiarity with server-side programming, databases, and server deployment, essential for building robust and scalable web applications.

### 100 Days of Code: The Complete Python Pro Bootcamp

Udemy 100 Days of Code by Dr. Angela Yu • 2020

- Validation of proficiency in Python programming, showcasing a comprehensive understanding of the language's syntax, features, and functionalities.
- The focus on hands-on projects ensures practical application, greatly increasing my ability to tackle real-world coding challenges and implement solutions.

## INVOLVEMENT

### Organizer

Imo State University • Google Developer Student Club (GDSC) • January 2023 - January 2024

- Co-ordinated an on-boarding event on campus attracting 20+ new initiates and 8 speakers, thereby increasing community by 25%.
- Actively engage in 3 coding challenges and competitions organized by GDSC, honing problem-solving skills and competing in a collaborative and supportive environment.
- Serve as a mentor to new-comers seeking guidance on technical matters, fostering a culture of knowledge sharing and mentorship within the GDSC community.

## SKILLS

**Technical Skills:** Web Development, Api, Backend, Web, Restful Api, Json, Html, Css, Node Js, React, React Redux, Bootstrap, Jquery, Single Page Applications, React Js, Frontend, MongoDB, PostgreSQL.

**Languages:** Fluent English, Igbo, Minor Yoruba.

**Soft Skills:** Team Worker, Technical Writing, Communicator, Listener, Quick Learner, Self Motivated
